Is there anyone who is working on a quest addon specifically on joanas leveling path. i personally would want this since i don't have 2 screens (playing on a laptop in a really small room) Forever ago it seems i was leveling toons and heard about Joana and his exploits at speed leveling. As one of the most enjoyable experiences in WoW was leveling, I appreciated the guide he put out and had paid for it and its update for both BC and Wrath. It appears he has been kind enough to put it up for free, which is awesome for the new folks or those with foggy memories of where to level and what to expect to get to 60 quickly. To Joana, thank you kind sir, you are a gentleman and a scholar! Link to the guide here. Looks like there are some updates he is working on for Alliance, but Horde is all there, which is the only thing that is important (to me anyway). FOR THE HORDE! I can only find it through his website and I was wondering if anyone has it for free before I "buy" it. His site is still down. I can provide proof of purchase if needed. I cannot access his guide while the site is down. If anyone could provide me with the lvl 20-30 section (horde side) I'd be super grateful. Has anyone else experienced that they get outleveled by Joana's leveling guide? When i got level 20, it said i should be 21 by now, but i'm like 10 bars away. I assume it's because Joana is a troll (character) and gets the % increased xp for beast slaying. I don't know how i should keep up. Should i just do the quests, that it says i should skip, or do you guys have any recommendations?
